## 868MHz ROLLING CODE REMOTE CONTROLS

Durable, high security remote controls with a shock resistant solid frame & brushed stainless steel face over the protective, sliding button cover.

### Benefits

- Repeat Business! Company logos laser etched
- Quality! Durable PCB integrated buttons
- Secure! Rolling code cannot be copied
- Reliable! 868Mhz not subject to interference
- Simple! No site visit to add new remotes
- Safe! Sliding button cover to protect buttons

### Features

- 868Mhz Rolling Code
- 4 buttons
- Sliding button cover
- Stainless front face (laser etched option)
- Solid shockproof frame
- Splashproof rubber seal
- LED on activation
- Long life lithium battery
- Keyring loop

## 868MHz ROLLING CODE UNIVERSAL RADIO RECEIVERS

### Features

- no site visit required to add new remotes
- universal - suits any system on 12-24 AC or DC
- bug proof enclosure
- 2 channel standard - 4 channel option
- pulse & latch outputs
- n/o or n/c relay outputs w/ 5A 240V contacts
- save up to 200 remotes per receiver
- integrated antenna inc. external optional
- non-volatile memory
- pcb integrated receiver

### TECHNICAL SPECIFICATIONS

- Input Voltage: 12-24 AC or DC
- Rating: 24W
- Input Power: 0.4W
- Frequency: 868. 35Mhz
- Type: Supersonic heterodyne rolling code
